Free WVASolo - Online voice stress analyzer. WVASolo offers you an instrument to find and analyze your stress and language disorders. Q: Applying a policy to the data I am working on an application where I need to split my data into buckets. So I need to define a custom policy to do so. I have two classes in my policy, one for the buckets, and the other for the data. The policy is as follows:

```
$data_buckets = array( "buckets" => array(), "data" => array( "buckets" => array( "bucket1" => array( "data" => array( "key1", "key2" ), "data" => array( "key1", "key2", ), ), "data" => array( "key1", "key2", ), ), "bucket2" => array( "data" => array( "key1",
```
