Dictionary of words for every life experience. WIDHURA Dictionary is a multilingual wordbook that allows you to quickly translate words and files from several languages. Smooth search and converter functions The search function enables you to search for the desired word just by typing in a few letters. This can prove useful if you cannot remember a word, but know the pronunciation as you can find it through a trial and error process. An alternative to search for a specific word is to access the embedded alphabet and navigate through the items listed. The converter feature provides you with a quick way to translate a document from the native to the foreign language. The utility only supports TXT, RTF and DOC files and it can export in the latter file formats. Includes a multiple-voice reader WIDHURA Dictionary comes with Read from file feature that allows you to load a file in the selected language and have it read on various voices. You can select from a wide variety of female or male voices from different geographic regions, such as Italian, Arabic or Sinhala for example. You should know that you can export the file you read from to WAV format and hence, listen and learn the pronunciation whenever you have some free time. It would have been helpful if the app supported more audio formats, especially files compatible with mobile devices. The automatically copy text function can be a nuisance It is worth mentioning that if you copy an item to clipboard while having the application open, it will translate it into the last language set. On one hand, this can be useful when browsing through websites or files that are the language you are trying to learn. On the other hand, this feature can also become bothersome or distracting at some point, when you have several programs opened and you need to focus on your work. A good utility for travelers If you are constantly traveling and enjoy discovering various exotic cultures from all across the globe, then WIDHURA Dictionary can be a great tool to learn a new foreign language.
