Click Me Crack + Activation Code With Keygen PC/Windows Latest

Click Me is a lightweight software application designed with a single goal in mind: to help you play a prank on your friends. This program can be run on all Windows platforms and displays a small window which reveals the "Click me..." message. Whenever you try to perform a single or double-click mouse operation on the panel, it automatically avoids the mouse pointer and places itself on another area of your screen. It's a never-ending chase after the "Click me..." panel, as you never get to click on it. The advantages of being portable Since this is a portable program, it is important to mention that it doesn't leave any traces in the Windows Registry. You can copy it on any USB flash drive or other devices, and take it with you whenever you need to play a joke on your friends or work colleagues the breeze, without having to go through installation steps. Simple-to-configure options Click Me doesn't offer support for a user interface in order to help you trigger the process. You need to perform a double-click operation on the EXE file every time you want to make the app to reveal the "Click me..." panel. The best part about is that you can run multiple instances of the program, so you can start chasing multiple windows at the same time. The lack of configurable settings makes it an ideal app for rookies, who don't want to spend a lot of time tweaking many dedicated parameters. During our testing we have noticed that Click Me carries out a task quickly and no errors showed up throughout the entire process. As it would be expected from such a small utility, it remains light on system resources, so it doesn't hamper computer performance, nor interfere with other programs' functionality. Bottom line All things considered, Click Me proves to be a simple software application worth having when you need play jokes on your friends. Click Me Features: * Run with Full Screen * Run in Background * Lock application when restart the computer * Hide the application * Run-Time settings * Launch by Win+R * Loop times * Restart a Loop Click Me Review on All Windows Devices...
