

JARDICAD is a complete drawing program dedicated to landscape, for ... 2020 - 2D landscape plan made with JardiCad 2D plan software for landscape professionals, garden designers and landscape architects. This tool offers a wide range of options for creating and sharing garden design style site plans. JardiCad was created as a tool for professionals with which to make detailed 2D landscape plans, develop landscaping projects, and map terrain. It has everything you need. It includes the ability to add inscriptions to the terrain plan and save them as images. So you can always show the map to your friends or print it out. The program has built-in capabilities to use vector images as a substrate for adding inscriptions to the map. The program comes with many ready-made layouts for inscriptions, but you can create your own layouts. Another feature of the program is the ability to add layers to the map image. You can paint over them, add captions, and make inscriptions. This is especially useful for creating 3d postcards and collages. Or you can just download the template and print it In this thread I propose to post postcard templates. The templates can be found on the Internet, do it yourself, look for them in books, magazines, etc. A4 format Here you will find a variety of postcard templates that you can print on the printer and Here you can find the most beautiful and original greeting cards for various holidays and events.
