WindowsDesktopChange

WindowsDesktopChange is a very small free tool for Windows 10 that adds arrow icons to the system tray area. With these new icons, you can quickly switch between all your virtual desktops. The icons are stored in the tray area, so you can easily find them when needed. The application works as a free download for Windows 10, Windows 8, and Windows 7, and there is no installation needed. It may take up less than 100KB of storage space. By pressing the left or right arrow icons, you can switch between all of the virtual desktops that you have configured in Windows 10. You don't have to use the Start menu, or any other hotkeys. Just right-click the icon in the tray area, and you can quickly cycle through them. The WindowsDesktopChange application is an open source project that has been developed in Visual Studio and is offered as a free download. This means that you can download it and use it without any restrictions, but you should accept the application's terms of use before doing so. The open-source nature of WindowsDesktopChange means that it is easy to make changes to the source code, so you can use the application to suit your needs. If you find the icons in the system tray area are not exactly what you need, you can hide them or change their position in the tray area. By right-clicking one of the icons, you can exit the application or add it to the startup list. You can also add your own desktop icons to the tray area to display in the virtual desktops. You can create a shortcut to any file you want to display in the virtual desktop, and right-click the new icon in the tray area. The application can also run in the background and notify you when it is time to switch between your virtual desktops. These are just some of the many great features that WindowsDesktopChange has to offer. To learn more, visit the project's official website. WindowsDesktopChange is compatible with Windows 10, Windows 8, and Windows 7. It may take up less than 100KB of storage space. A detailed readme.txt file is included with the application. Compatibility: Windows 10, Windows 8, Windows 7 System requirements: Windows 10, Windows 8, Windows 7 Find the ultimate tool to make video calls. No more dialing through a maze of numbers. With Duo call, video calls to your contacts and friends are a snap. You can
