XILG - The XML Image List Generator Free

XILG is a small program that can generate thumbnail pages with up to 100 pictures. It has a very simple user interface with very few options and controls. XILG allows you to generate HTML pages with hyperlinks to the full image description page, an options page and a style sheet. XILG is very fast, is fully tested and has a very small memory footprint. XILG - The XML Image List Generator Security: XILG should run on any Windows 2000, NT or Windows 2000 with SP 2 32 or 64 bit computer. While XILG has been tested to work on Windows 98, it has not been tested to work on Windows 95 or Windows NT 4. There is no assurance that XILG will work on those computers. XILG - The XML Image List Generator Limitation: XILG does not generate PDF thumbnails or HTML4 thumbnails. It can generate up to 100 images on a page, and the file size of the generated thumbnail HTML will be around 200 KB. This is a limitation of Windows 2000. XILG - The XML Image List Generator The current version is 6.5.0, 6.5.1 is due to be released on January 1, 2009. The new version has some updated pictures for the 2005 *Earthwatch *icons and small modifications to the user interface, including the new appearance of the option page and the new appearance of the style sheet. XILG - The XML Image List Generator Special thanks to my testers: MikeT, Jajas, and no name, but I am feeling generous today! XILG - The XML Image List Generator Special thanks to my testers: MikeT, Jajas, and no name, but I am feeling generous today! Special thanks also to Norm Hochgelah, from * for his help, support and code. ----- XILG : The XML Image List Generator Copyright (C) 1998-2005 Philip Klau. Dig For Clean Energy In National Parks Scott Cousins pulls his Honda from the motor pool at the Grand Canyon, the oldest and deepest national park in the country, and takes his 6-year-old son, Joey, for a morning hike. "This is a perfect place for Dad to take Joey, for a walk, and 09e8f5149f

XILG - The XML Image List Generator Free
