### What's New in the?

WixTool-Yellow Edition is an easy to use editor for Windows Installer XML (WiX) UI. This editor gives you a visual representation of WIX UI and easy way to edit it. WixTool-Yellow Edition provides you with an user-friendly interface that makes it suitable for both beginner and advanced users. This is a part of upcoming Allure 3.0 I would like to know if anyone have used it before and which is better and also has anyone got any docs on it? Thanks in advance A: WIX Tool is obsolete, and has no official replacements. For a replacement for WixUI, look at the standard InstallBuilder which uses the Wix Toolset. For the new Microsoft Builders, you can see what it looks like here: Q: Running a loop until condition is true I'm trying to write a script that will run until a certain condition is met. I can do it for loops or using if statements but my problem lies in trying to do this with a while loop. I'm trying to execute a script for every user that is online, until a certain date is reached. So far I've got: w = get\_online\_users() for x in w: for i in x: try: time.sleep(60) if datetime.datetime.now().date()
