## Screens

Screens is a handy, easy-to-use application specially designed to help you create physics presentation on different types of screens. Screens has a simple interface: You start by choosing a screen (sink, projector, TV, etc.). Then, you place objects in the screen by dragging and dropping them with your mouse. In the lower part of the screen, you will see a list of all objects already placed. You can also view the list of objects on the screen at any time. You can also play movie with soundtracks or create your own soundtrack. In order to do this, you can add several items to the soundtrack by clicking on the buttons and dragging them in the lower part of the screen. As soon as you are ready with your presentation, you can save it to a file or send it directly to your projector by clicking on the buttons that will appear on the lower part of the screen when you choose your output options. Screens can be used as a standalone application or can be added as an add-in to PowerPoint 2007 or 2010. Media Controller is a powerful multi-threaded digital signage engine that fully integrates with Plexon's OBOS software for control and management of high-end screens, DTVs, projectors and other digital media players. It supports hardware acceleration for better performance, multiple display configurations, video management, control (play, stop, rewind, pause, advance) of OBS, real-time editing of text, pre-roll ad, live streaming of internet TV, multiple sources (dvd, cd, files, live streams), background color changes, and much more. Fusion HD video remote (Universal) - software Key is a remote control application for home television (HD and SD TV). Fusion HD video remote (Universal) supports over 200 HDTV models from several brands. All models are listed in English and Japanese. Now you can control your HDTV from your computer. Please download "Universal Fusion Remote App for Windows" separately. Wispro SQL is a

---

WYSIWYG database design and administration tool. It can be used to design and create SQL database tables and view windows. All the normal SQL database table and view window operations, including CREATE, ALTER, DROP, INSERT, UPDATE, and DELETE, can be performed from the interface. News Server is a multi-threaded news server application that will allow you to run multiple

### What's New In Screens?

Screens offers full support for presentations, flow charts, RDF graphs, and other types of multimedia content. At the same time, the application fully integrates in the Microsoft Windows OS. With Screens, you don't have to learn any new technical language in order to create professional presentations. Just go to Screens Features:

- \* Create presentations for Microsoft PowerPoint, OpenOffice Impress and OpenOffice Draw
- \* Create presentations for scientific and engineering applications
- \* Work with image, video, audio and text content
- \* Convert images, videos and other formats to RDF graphics
- \* Include text on graphics with different font sizes and styles
- \* Export images, videos, audio, RDF graphics, and RTF text
- \* Convert images, videos, RTF text and RDF graphics to other formats
- \* High resolution fullscreen mode and one of the most beautiful and elegant user interfaces
- \* Support for more than 200 languages

Try screens:

- \*Microsoft PowerPoint
- \*Microsoft Word
- \*OpenOffice Impress
- \*OpenOffice Draw
- \*OpenOffice Writer
