- [app store:///id/... June 5, 2020 3 Overall Quality Ease of Use Usability Pretty good Pretty good Oct 18, 2019 5 Overall Quality Ease of Use Usability Updates on services I use this app to check if the services I use are down. It has been a great help in spotting when services are down. And the fact that it is open source does not matter when it is so useful. Pretty good Oct 13, 2019 4 Overall Quality Ease of Use Usability Very useful Allows me to get notified when services go down which is great Oct 10, 2019 5 Overall Quality Ease of Use Usability Best monitoring app Instatus Out Crack For Windows have a very unique feature, allowing one to set a service free from service monitoring. Pretty good Oct 7, 2019 3 Overall Quality Ease of Use Usability It would be nice if you can add Windows and Mac services It would be nice if you can add Windows and Mac services Oct 6, 2019 3 Overall Quality Ease of Use Usability Checking out the services I decided to give it a go. I set up a GitHub account. I think there's an online issue tracker. I decided to start using the application for that. I think I don't need to have an account to use the app. I would like to see instructions on how to use the web page. I cannot see any connection with the service for that, so I don't know how to use it. Pretty good Oct 1, 2019 4 Overall Quality Ease of Use Usability It is easy to use It is easy to use Oct 1, 2019 5 Overall Quality Ease of Use Usability Best software to manage issues with services Very well designed. It has a lot of useful features, such as showing servers that are offline. I use it as a replacement for the website monitoring dashboard (e.g. in Nomad
