What's New In MM3-WebAssistant - Proxy Offline Browser?

MM3-WebAssistant - Proxy Offline Browser is a proxy-free, easy-to-use, standalone offline web browser designed to provide better performance by offline browsing. What sets it apart from other offline browsers is its ability to store its visited pages on your computer in an easy-to-access format. You can easily access the archive from anywhere and spend less time fiddling with your PC while you are offline. It can be configured in 2 different ways to allow you to browse the Internet as if it were online, storing only the pages you have opened, or storing everything. It supports FTP, HTTP, and HTTPS protocol, and can automatically prevent ads and other annoying content from being stored on your computer, as well as removing or keeping session identifiers. It can be easily configured to work in offline mode if you don't have a proxy at hand. Some proxy-free software and add-ons do not work properly when online and offline browsing sessions are mixed. MM3-WebAssistant - Proxy Offline Browser provides a clean environment to ensure that you are able to use all the proxy-free tools in their original function. Features: View visited pages in offline browsing mode Automatically delete cache after you reconnect to the Internet Stores a webpage's copy in a dedicated archive Applies a selection of configurations to improve browsing Keeps a permanent or temporary list of bookmarks Logs DNS information to ensure fast browsing Detects the correct encoding for different languages Search engines such as Google, Yahoo, DuckDuckGo FTP, HTTP, and HTTPS protocols System requirements: CPU - 1.7 GHz RAM - 2 GB Disk space - 32 MB How to install and use MM3-WebAssistant - Proxy Offline Browser: File Name - MM3-WebAssistant-ProxyOfflineBrowser-win.exe Software version - 0.6.1.2 Link downloading - Download Link About the developer: MM3 Technologies (MM3, MM3-WebAssistant) is a Hungary based independent technology company, which develops web services and software solutions for Windows, including. MM3-WebAssistant - Proxy Offline Browser. The main product of MM3 is MM3-WebAssistant - Proxy Offline Browser, a standalone web browser designed to provide better performance by offline browsing.
