ColorMania Crack Free

ColorMania is a lightweight cross-platform utility designed to give you a hand when it comes to identifying the colors of your screen, webpages or any other programs. This color picker utility is especially created web designers or graphic artists who need to preview, test and organize color values. A color picker that shows various color properties It sports a clean and simple interface that gives you the possibility to view the color schemes for any grabbed area of the screen. Its built-in magnifier makes things easier for you, as you can pick the zooming level and view the selected region in a dedicated pane. The tool offers support for a wide range of colors and works with HTML color codes (Hex / CSS), Delphi Hex, VB Hex, C++ Hex. It easily identifies the RGB values, the color hue, the saturation and the brightness levels, and more. Save and load color palettes ColorMania comes packed with predefined HTML color codes and gives users the possibility to save the color palettes they find on screen. Obviously, a color palette can be easily loaded whenever needed. And speaking of hues and color palettes, ColorMania enables you to view the color codes and properties of a plethora of shades and tones. A lightweight color picker for Windows During our testing we have noticed that the program accomplishes a task quickly and without errors throughout the entire process. It remains light on the system resources, so it doesn't eat up CPU and memory, nor interfere with other programs' functionality. All things considered, ColorMania offers an intuitive working environment for helping you pick the right color for creating designs or HTML pages. Although it cannot be described as the most powerful tool on the market, it does what it says and is suitable for all types of users, regardless of their experience level. Size: 1.4 MB Time to download: 4.1 minutes Requirements: Windows: XP or later Mac OS: Intel-based (Mac OS X, not supported) ColorMania is a lightweight cross-platform utility designed to give you a hand when it comes to identifying the colors of your screen, webpages or any other programs. All things considered, ColorMania offers an intuitive working environment for helping you pick the right color for creating designs or HTML pages. Although it cannot be described as the most powerful tool on the market, it does what it says and is suitable for all types of users, regardless of their experience level.There is a party atmosphere in the town hall as election results pour in across the country. Even the prime minister has to acknowledge this fact. "We are very happy indeed for tonight and we are very grateful to all the people of Windsor and Maidenhead," David Cameron tells reporters at the town hall just before 8 pm. "This is a night for the future and we look forward to seeing what the results will be." Cameron had earlier been in the Thames Valley town with all eyes on the result and his mood was upbeat as he made his way down to the town hall shortly before 8 pm. When he reached the massive audience

What's New In ColorMania?
