Change or add attribute to save image on Facebook when upload? I would like to ask, how can I change or add attribute to an image when uploading image on Facebook? For example, I have an image file at my storage, and I want to add to the Facebook a attribute that says which license the image is on. A. You can attach metadata to an image when you upload it to the Facebook Storage. For example, you can encode your metadata in the file name, the file content or the container itself. Here is an example of metadata encoding in the container name: var storagePath = FacebookStorage().url(); var uploadTask = storagePath.upload(your unique container name | your image data, metadata); On the client, if you need to decode the image metadata: var storagePath = FacebookStorage().url(); var downloadTask = storagePath.download(your unique container name | your image data); With this method, you don't need to modify any Facebook code. Metadata format: metadata: { "DC:phone:scam": "PERKOCOLA", "file": "Pernacola Nebel magarlate Both Wilkison said the scam begins with a letter that begins saying that there is a problem with a credit card that has not been used for 100 days.

I'd like to know if it's possible to have two separate words that would be pluralized without a third word (noun). The first one is toothbrush and the second one is the toothbrush. The second one seems an odd way of writing it, but I'm wondering if it's possible. A: Technically both toothbrush and brushes are correct, and it is the latter that has fallen out of fashion, but still used in academic writing. A: If a writer wishes to use the plural form of a word without a following noun, as a shorthand, they can use the same sign (e.g., their) and the word itself. (There is usually no need to precede the word with a dash and underscores before and after the word as is common in business writing.) The following represents a plural marker. It is applied to the word before adding the plural marker. In this example,
