Society Breaking News Suzuki Salvage Kits for sale in Nyanga, Paradise, Gauteng There is nothing like the the feel of the wind in your hair when you have the chance to enjoy a road trip. But, this is not just any road trip. No, this is a road trip through the bush. Traversing the Mpumalanga province in South Africa, the Tygerberg Nature Reserve is located in the paradise of Nyanga. The reserve was established in 1925 in order to promote agricultural and environmental development. Situated in the heart of the Mpumalanga Forest and Game Management Area (MFGA), the reserve is home to many birds, mammals and reptiles that are of huge importance to the region's ecosystems. Access to the reserve can only be achieved by a 4x4 vehicle. A little further away from the reserve, in the paradise, Gauteng province, is the Tygerberg Game Reserve. The reserve was proclaimed in 1969 and was established to protect man and nature and to provide a breeding ground for wild animals. Today, the reserve plays host to more than 300 wild animal species. But the main reason to visit the reserve is to take a visit to the South African Centre for Biodiversity in the Paradise area, to celebrate the inauguration of the brand-new resident African Penguin Colony. This special event will feature animal experts and a discussion on issues regarding the African Penguin at the premier venue for African fauna. From what the experts say, not all penguins are colour blind. Both reserves hold the key to the Tygerberg Nature Reserve Bookstore. The Tygerberg Nature Reserve Bookstore is an unique habitat as it has been transformed into a library and museum. The purpose of the reserve bookstore is to teach nature and wildlife so that the wild animals are not killed or harmed. The Tygerberg Nature Reserve is different from other nature reserves. It is unique for its own reason. The reserve has a unique community of guest lodges, a public lecture theatre where one can watch and engage with interesting speakers and organisations. About the
