NORSOK L 010 Pdf Download!m not going to let this go because we're not talking about what's going on in Iran, we're talking about what's going on in the illegal state of Israel. And you know what? We know why Israel is attacking not only Iran but Lebanon, with the almost constant artillery bombardment of the border with their neighbor, of the Lebanon border, and what they're doing in Gaza, they're doing it all with the permission of their US and British allies. And no one says a word about it. No one says a thing, except me. So like we said, it's called United in Iran. If the United States and Britain were not involved in this not only Iran, but in the Middle East. What's going on with Lebanon, Gaza, Iraq, Syria, they're all kind of interconnected. And most of these places are run by US and UK allies or close allies. But they're all right there, right there. They're on the ground, and they get to see what's going on. And it's disgusting what these people are doing. It's disgusting what these governments are doing. There's a point where we're at, you know, our resistance movement is at a critical point. We have people willing to sacrifice their lives just to be attacked as part of defending the homeland, the homeland as part of getting the US out of Middle Eastern countries. And the people on the ground don't see that. The people on the ground have never known this before. They're mostly uneducated, unschooled, they don't have any kind of understanding. But you know what? They're willing to fight for their country. And we've seen this in all kinds of places. The people in the Ukraine know exactly what's going on, the people in Syria know exactly what's going on. We've also seen in France. You know, they have a referendum. They're not going to live under the neo-colonialism of France, they're gonna fight for themselves. But the media never asks the question: "Does France want to live under military occupation and military service?" So they can't do it, they can't live like that anymore. And most people know what's going on. People on the ground know what's going on. If it weren't for the media, if it weren't for the shears of these media outlets who
