Great new screensaver collection – you can watch digital rain, fly over or grow forest with snowflakes, smile at kaleidoscope or clock, view Mandelbrot or Julia fractal set. With the movie screensaver you can watch amazing animation of flying birds and falling raindrops,

---

changing kaleidoscope, growing forest with snowflakes. You can also watch animation of planets, flying space ship or colourful bright bubbles. Many screensavers come as pure images, where animation is slow, but there are also programs that are installed directly into the operating system and do not rely on images

---

or sound, so you can view screensavers that are animated, play loud or low volumes, or super-fast, like snake, flies, balls, rainbow, smiley, planetarium, video material, acrobatic, fireworks, hydrophobic and much more! No time to view screensaver: If you're a traditionalist and don't like screensavers, there is also a

---

screensaver-free version of the application. Easy installation: Install screensavers to the "Screen Saver" folder. In order to view full screensavers you will need to enable "screensavers" in the "Computer" control panel. Since the collection is updated regularly, you may want to manually download it before
