## Cimatron E11 Torrent

the cimatron 16.5mm diameter electrodes add to the cimatron line of electrodes which are being offered in a variety of sizes ranging from 14mm to 50mm in diameter. the cimatron 16.5mm diameter electrodes are available with a 1.8mm, 2.0mm, or 2.2mm diameter hole, as well as a 0.50mm taper for larger hole sizes. electrodes that are between 14mm and 50mm in diameter, are available in a variety of thicknesses ranging from 0.7mm to 4.0mm. technology factories have been able to cost effectively manufacture electrodes for their products. cimatron offers these products in a lightweight and reliable manner. cimatron offers a complete design solution for the electrodes including the tool makers' perfect mold. more products for more markets. by expanding its product line beyond mold and nc programming, and by adding new modules for die design, cimatron is also adding to its customer base. with these new modules, cimatron is becoming more than a mold and nc programmer. now it's also a full-service provider, able to help customers with the entire tooling process from concept through production. we're also pleased to announce the addition of the conformal cooling module to cimatron, which makes it a full, end-to-end system for tool design. this module is capable of independently designing, creating, and simulating the cooling of a mold. the conformal cooling module is a valuable resource for customers seeking efficient cooling to increase productivity and improve mold life. new modules. we've been building tools for our customers since 1982, and we continue to evolve to keep pace with their needs. in cimatron 15, we've added dozens of new products and services. these new modules, such as the mold design module, improve productivity and reliability, and help you compete more effectively.

ease of a simple drag  
and drop. next  
generation nc  
programming  
capabilities. cimatron  
15 takes advantage of  
all the latest and  
greatest features of  
the latest cnc  
programming  
software. you can  
now optimize all your
